HOTFIX LIVE (just reload the app once to install)

New

- Epic+ loot reveal setting — added a setting to disable the multi-tap stat reveal on Epic, Legendary, and Mythic cards.
- Ring/Trinket compare — equipping from inventory now goes straight into compare instead of forcing the slot picker first.
- Dual-slot compare — compare flow for rings and trinkets is cleaner and more consistent when switching between both slots.

Balance

- Poison retune — poison damage scaling has been lowered so stacks do not ramp out of control as hard.
- Venom Surge — the second hit is now weaker and deals 50% damage.
