

V1.0.7.11

And another small Hotfix v 1.0.7.11: Prismatic unlocks had indeed sync problems. This is now fixed:

- Prismatic skin unlocks are protected — ♦ foil unlocks save to your phone immediately and merge to cloud as soon as sync runs; restarting the app won't strip them, and sync can't wipe a unlock that's still on your device.

Anyone who lost a prismatic just let me know - i will grant you a random one for the issues! I hope this is fair
